The Park after the season.
Any difference of opinion as to the comparative value of the London and the Canton Park after the season, may be decided by a visit to the latter. The Canton Park, which is situated in the heart of the city, is a beautiful garden, with many of the best specimens of the various kinds of trees and plants that are found in the tropics. The London Park, on the other hand, is a large, open space, with many of the best specimens of the various kinds of trees and plants that are found in the temperate zone. The Canton Park is a beautiful garden, with many of the best specimens of the various kinds of trees and plants that are found in the tropics. The London Park, on the other hand, is a large, open space, with many of the best specimens of the various kinds of trees and plants that are found in the temperate zone.
